335. PLUG

The17 are gathered in the living room of a house,
curtains drawn, brightly lit
All light sources plugged into mains via multi-plug adaptor

All electrical appliances in the house capable of
producing noise are brought into the room
Set to a high volume and plugged into mains via
multi-plug adaptor

All appliances are switched on for 7 minutes

All appliances and lights are switched off at the mains simultaneously
Silence and darkness for 7 minutes

The lights go back on and The17 talk about whatever
they feel like until it is time to go home
